Basic Laparoscopy Workshop

Friday, 13 September 2024 | 1pm – 3.45pm

Academia, Level 2, Procedural Skills Lab 2B

20 College Road, Singapore 169856 (Located in SGH Campus)

INTRODUCTION

In the last 20 years, Minimally-Invasive Surgery (MIS) has expanded from its niche area to join the mainstream of most surgical specialties. In fact, MIS procedures have become the preferred choices in gallbladder, colorectal and bariatric surgery; and indeed MIS is even making inroads into traditional bastions of open surgery such as transplant, cardiac and orthopedic surgery.

Surgical training in the 21st century would be incomplete without formal teaching and structured guidance in the technique of MIS procedures. This workshop will allow participants to practice and enhance their laparoscopic skills.

COURSE OBJECTIVES

- At the end of the workshop, trainees will be able to demonstrate the basic laparoscopic techniques and acquire skills and knowledge in handling the laparoscopic instruments and camera.
- Techniques in laparoscopic camera and instrument handling
 - Techniques in laparoscopic suturing and knot-tying
 - Electrosurgery in laparoscopy
 - Safe access to the abdomen
 - Ergonomics
 - Pre and Post-operative considerations

WHO SHOULD ATTEND

- Strongly recommended as a mandatory program for R1/R2 residents in General Surgery, Obstetrics & Gynaecology, Cardiothoracic and Urology programs.
- House Officers, Medical Officers
- Clinicians who seek to equip themselves with the basic laparoscopic techniques.

REGISTER BY 13 AUG 2024

Course Fee: S\$109 (GST Inclusive) (After 80% Subsidy from Surgery ACP)

- Certificate of Attendance will be issued to those who pass the assessment of the workshop
- CME Points: 2 (Application in progress)

For registration, please complete the registration form and email it to sims.sssc@singhealth.com.sg.
